NOTES :-

Heights are in metres and above Indian mean sea level.

Contours are approximate.

A relative height, (h) represents the approximate height, in metres, between the top and bottom of a steep slope.

A relative height, e.g., (6) marked along a canal, indicates the height of the top of the canal embankment above the adjacent ground.

The state boundary between Andhra Pradesh and Orissa States has been surveyed as pointed out by the local officials on the ground, but has not been verified by the Government concerned.

The exterior boundaries of areas of Reserved Forests / Lands are shown by green tints.

All cart tracks and unmetalled roads along the canals are navigable throughout the year. Permission to use them is required from irrigation authorities.

All the streams passing the double line canal have been updated from satellite imagery may have inconsistencies but shown for ease of reliable information.

COMPILATION INDEX

A. Compiled from 1:25,000 survey 1966-68. Updated from satellite imagery 95 – F 5 of 2000

Projection – UTM Datum – WGS 84

Magnetic Variation from True North about 1° West in 2005.

(Annual change negligible)

1:50,000

CONTOUR INTERVAL 20 METRES
