Subject: FW: EC of IOCL Bhadrakh Textile Project - Querries raised by SEIAA

Dear Madam,

Good Day !!

Indian Oil is putting up a green field textile yarn manufacturing unit at Bhandaripokhari , Bhadrakh. The plant is being set up at a cost of approx. 2000 crores and is expected to come on stream by end of 2023. This plant would provide direct / indirect employment to approx 2000 persons and would act as the supplier of raw material for numerous smaller units which are expected to come up around it.

For this project , Indian Oil has already acquired 59.625 Acres of Land at Village Pahimahura (8.665 Acre) & Helapur (50.960 Acre) villages from IDCO . Detailed schedule of Land along with the copy of agreement is attached for reference.

Indian Oil had applied for Environmental Clearance of the project and the Public Hearing for the Environmental Impact Assessment has already been concluded . In this regard we have been asked by the SEIAA (State Environmental Impact Assessment Authority) to provide the DLC Status of the proposed site.

Request to kindly provide the DLC Status of the proposed site for onward submission to SEIAA.

Best Regards,

Dhananjay Sahoo
